## FORD THEATRE LOS ANGELES, CALIFORNIA

**Owner**  
*The Ford Theatres Foundation  
Los Angeles, CA*

Nestled in the Cahuenga Pass in Hollywood, the Ford Theatre is an intimate outdoor venue off of the 101 freeway just a canyon away from the Hollywood Bowl.

**Architect**  
*Levin & Associates Architects  
Los Angeles, CA*

Natural stone veneer and rough-faced stones of all shapes, sizes and colors were installed at the back stage wall. Stone colors capture the timeless character and rustic beauty of an open-air amphitheater and was ideal for this restoration.

**Structural Engineering Firm**  
*Structural Focus  
Gardena, CA*

Big Horn/Sandstone blend and the depth of the natural stone installation creates a landscape that combines well with the surrounding hillside giving a visually imposing architectural design in the Hollywood Hills.

**General Contractor**  
*Charles Pankow Builders, LTD  
Pasadena, CA*

Stone is an impressive building material characterized by permanence and durability and its use at Ford Theatre sends a clear message of city pride in this historic Los Angeles landmark.

**Masonry Contractor**  
*Masonry Concepts, Inc.  
Santa Fe Springs, CA*

Construction by a signatory masonry contractor using members of Bricklayers & Allied Craftsmen Union Locals

**Square Feet of Masonry**  
*3,000 Sq. Ft.*

**Cost of Masonry**  
*\$405,000*
